Profile

Enthusiastic AIML graduate with a strong foundation in Python and Data Structures & Algorithms (DSA). Passionate about learning Machine Learning and its functionalities.

Skills

Technical Skills

Python, C++, Web Programming(Basic)

Soft Skills

Team worker, Punctuality, Flexibility

Tools

Git, Git-hub, Jenkins, VSCode

Education

BE in AIML, Vidhyavardhaka College of Engineering CGPA-9.37	2022 – 2026
Pre—University Education in PCMB, BASE PU College Result- 87.16%	2022
Secondary School Education, Christ Public School Result-89.4%	2020

Projects

Epileptic Aura Detection model using Deep Learning

Developed a CNN-LSTM deep learning model to predict epileptic auras in women using EEG signal data, achieving over 90% accuracy in early warning detection by capturing patterns in signals.

Epileptic Seizure Detection model using Machine Learning

Developed a machine learning model using K-Nearest Neighbors (KNN) on EEG signal data for epileptic seizure detection, achieving 93% accuracy through hyperparameter tuning.

Certificates

EDSPIRE Augmented Reality App development Gained practical experience in building AR interactive apps using Unity, including facial recognition filters and object identification models.	10/2024
IBM Skills Build - AI Fundamentals Completed an online internship focused on prompt engineering and chatbot development, gaining hands-on experience in designing effective AI interactions.	08/2024
EDSPIRE Foundations for XR development Explored the basics of Extended Reality (XR) and gained hands-on experience using Unity to design and build short interactive games.	02/2024

Relevant Coursework

Data Structures and Algorithm, Machine Learning & Deep Learning, Cloud computing, DevOps, German (A1&A2)
